Let me complain about some Japanese people for a minute. Technically I don't have to ask your permission since it's my fucking blog and I can write about whatever I want. But I still try to observe decorum, and that counts for something in this crazy world. This isn't going…

Well, I'm officially done with college. I'll be graduating from Mary Washington in a week, but I don't think I'll be saying goodbye to DS106. I hate that I wasn't able to keep up with it this semester. I had so many great ideas for things I wanted to make,…

Jim Groom Art or #jimgroomart was started by the noiseprofessor, Zach Dowel. Your job, is to take any gif and replace any person, animal or object's face with Jim Groom's face. Be creative with it... it doesn't have to be flattering. Aside from the one I submitted done by myself, here is another one by the esteemed professor himself: http://www.noiseprofessor.org/?p=850

Jim Groom art bandwagon, just because!

Everyone is having a blast with the Jim Groom art assignment, and I decided that I should crash that party.
I found the original gif here, and the clip is from an anime called Poyopoyo Kansatsu Nikki.
Jim Groom is pretty kawaii, don't you think?

Remix Assignment: Consumer Mashup; The Subtle Switcherooooo! 5 Stars

For this assignment I chose to use Chelsea Mageland's beautiful work of art. She did a take on the Target logo, which can be seen here, http://blog.chelseamageland.com/2012/04/11/consumer-mashup/ . So my job was to make a subtle change to her assignment. Can you guess what I did?! Can ya?! Well I...

Remix Assignment: Album Cover [In Another Language]: A take on mfwalker12?s version. 5 Stars

So, here is my little remix on Margaret Walker's "Alternate Album Cover" assignment! The remix wanted me to use another language, so I used one that is near and dear to my heart. I altered her work just slightly, adding the phrase "Or else..." in Spanish!

Remix it;

I ended up going through the generator and found a handful of different things to remix, they are as follows:

and

Tutorial: What's in your head remix?

The original assignment was to include images in the silhouette of my own head. The remix card was to show the prequel. So I put images in the silhouette of my past/childhood.

Free love and cheap bandwidth?

Photo Credit: Alan Levine

For years we've talked about having a space to make it easier for people to get "a domain of one's own" and we're finally able to do that. Welcome to Hippie Hosting where you can quickly (and cheaply) get setup with your website and domain. You'll have full access to setup MySQL databases, e-mail addresses, FTP/SSH access, and a whole lot more. And best of all you're not dealing with a big corporation trying to upsell you with obnoxious ads. By putting your domain here you can be confident that every dime that goes into the hosting gets spent making the experience better for everyone. Interested?
