Dear Dr. Tough:

RE: A Study of Group and Standard Prenatal Care

Ethics ID: 20821

Your request to modify the above-named protocol has been reviewed and approved.

Please be advised that it is permissible for you to add Ms. Tharsiya Nagulesapillai's MSc Thesis project entitled "*Breastfeeding among mothers new to Canada and Calgary: The role of maternal psychosocial health and socio-demographic factors*" as a sub-study to the above noted study, based on the information contained in your correspondence dated January 9, 2012, received in our office on January 20, 2012.

We note that this project will involve secondary data analysis from the above noted study. The research questions that Ms. Nagulesapillai's thesis will seek to answer are within the scope of the original main study.

Thank you for attaching a copy of the memo for Ms. Nagulesapillai's thesis proposal approval, based on the information contained in your correspondence dated January 9, 2012, received in our office on January 20, 2012.

A progress report concerning this study is required annually, from the date of the original approval (2007-06-07). The report should contain information concerning:

- (i) the number of subjects recruited;
- (ii) a description of any protocol modification;
- (iii) any unusual and/or severe complications, adverse events or unanticipated problems involving risks to subjects or others, withdrawal of subjects from the research, or complaints about the research;
- (iv) a summary of any recent literature, finding, or other relevant information, especially information about risks associated with the research;
- (v) a copy of the current informed consent form;
- (vi) the expected date of termination of this project.

Thank you for the attention, which I know you will bring to these matters.

Yours sincerely,

Glenys Godlovitch BA (Hons), LLB, PhD
Chair, Conjoint Health Research Ethics Board
