

action items to preserve endangered Canadian hydrocarbons

Canada must take
ownership of her
homegrown terror

silence species
dissidence

increase speed
and frequency
of manifestos

replace hostile tubers
with shiny new tubulars

ban wilderness activity
from access roads
flare stacks, tailings ponds

subsidize tank farms

raze al-Taxa
training camps

guard bardic upgraders
against sabre-toothed taiga

— LESLEY BATTLER

LESLEY BATTLER works in the petrochemical industry, and is also a student in Creative Writing in the English Department at the University of Calgary. *Action items to preserve endangered Canadian hydrocarbons* is part of a series of poems entitled *The PetroConomist*.
