DISCUSSION

What tools do you use to engage students in learning about research methodologies across courses?

How does this kind of series work in your own faculty?
Who do you invite/how do you decide on focus of talks ?

How can we work together across faculties to create interdisciplinary learning opportunities for students?

If not, what resources and knowledge do you have in your department that you could bring together into this kind of collaboration?

THANK YOU!

VICTORIA BURNS (VICTORIA.BURNS@UCALGARY.CA)

DEINERA EXNER-CORTENS (DEINERA.EXNER2@UCALGARY.CA)
