

# Get to Know the Calgary Regional Partnership

BY CRPADMIN • SEPTEMBER 4, 2014 • PARTNERSHIP/PLAN, VIDEOS

So who are the [Calgary Regional Partnership](#) (CRP)? What do they do? How does it affect me and the Calgary Region?

As we publish stories about the great things happening in the Calgary Region, we also wanted to introduce ourselves and the work we do.

Check out this overview video on CRP and why working together is important in the Region.

## **A little more about the Partnership**

The CRP is a collaborative network of [12 municipalities](#) in the Calgary Region that work together to ensure growth occurs in a sustainable manner.

We are the only voluntary regional organization of municipalities in Canada, and collectively we represent more than 1.2 million people.

**The Partnership is preparing the Region for the more than 1.8 million people expected to arrive over the next 60 years.**

We want to answer the following questions as a result of that growth:

- **Where will they live?**
- **How will they move around?**
- **Will there be enough water?**
- **What type of jobs will they have?**
