

Terms and Conditions – Overview

You are free to download and use the data on this site for educational or research purposes. If the data or processing results are used in publications or educational materials, you should acknowledge their source by citing:

Hirsch, M., Bentley, L.R., and Dietrich, P., "A comparison of electrical resistivity, ground-penetrating radar and seismic refraction results at a river terrace site", *JEEG*, 13, 325-333, 2008.

You must have written permission from the authors to use any portion of the data or results derived from the data for any commercial purposes.

Limitations on Use:

This data has been made available for public download as a part of conformity with publication of the paper entitled "[A comparison of electrical resistivity, ground-penetrating radar and seismic refraction results at a river terrace site](#)". Any information or products contained on this website may be used, downloaded and printed in specific research experiments and projects, with appropriate acknowledgement and reference in any publication, for non-commercial purposes only. The information and products contained on this website shall not be modified, copied, distributed, reproduced, published, licensed, transferred or sold in a commercial product, process, service by trade name, trademark, manufacturer, in whole or in part, without the written consent of the [authors](#).

Disclaimer:

The data and information contained on this website has been provided as a public service. By accessing this web site, you are agreeing to be bound by these website Terms of Use, all applicable laws, and regulations and agree that you are responsible for compliance with any applicable local laws. The information, material and content provided in this site are believed to be reliable but there is no guarantee that it is accurate or complete. This website may contain links to other websites that are created and operated by independent bodies. Such external Internet addresses contain information created, published, maintained or otherwise posted by independent individuals, institutions, or organizations. We do not endorse, certify or control these external Internet addresses and do not guarantee the accuracy, completeness, efficiency, or correct sequencing of information located at such addresses.
