

Calgary Regional Partnership February 2013 Steering Committee Updates

BY [CRPADMIN](#) • MARCH 4, 2013 • [ECONOMIC DEVELOPMENT, REGIONAL SERVICING AND CMP IMPLEMENTATION, REGIONAL TRANSPORTATION, STEERING COMMITTEE](#)

February highlights from the [Calgary Regional Partnership](#)'s steering committees

Economic prosperity:

The Regional Economic Prosperity Committee has worked with the Calgary Region Economic Partnership forum committee in a two-part workshop series identifying the regional economic development goals and priorities. The outcomes will be compiled into a three year regional economic development strategy which will be submitted to the Regional Economic Prosperity Committee in April for approval.

Regional servicing:

On February 22, the CRP Executive Committee agreed to review regional servicing mandate and governance. Therefore, the Regional Servicing & Watershed Stewardship Steering Committee will now be recessed so that members can participate in the review. Please stay tuned for more information about a workshop in April to update the Executive Committee with information necessary to make decisions about regional water and wastewater servicing governance, and mandate.

Regional transportation:

[ZGM Collaborative Marketing](#) presented their recommended regional transit brand to the steering committee. The brand was well received with the steering committee voting unanimously to send the brand to Executive committee for approval in March.

A presentation on the analysis portion of the regional transit governance project's final draft report examining whether it is more beneficial for the Calgary Regional Partnership to own and operate regional transit assets, was also made and received for information.
